

Blackfinch Spring Venture Capital Trust

8 Reasons Why

Team Aligned with Clients

Blackfinch has an environmental, social, and governance (ESG) focus and invests in companies that we believe can deliver a positive benefit. Blackfinch invests alongside our clients and the team is incentivized by the performance fee. Managers focus on picking the best firms, making them successful and targeting timely exits.

High Hurdle for Performance Fee

The performance fee of 20% will only be taken when the performance value per share exceeds a high water mark, which starts at £1.30. This demonstrates our confidence in the great potential of these underlying companies.

Solid Return Strategy

The team invests in high-growth firms. Criteria include the capacity to grow by disrupting large growing markets typically of at least £1bn, and the potential for significant returns at exit. Firms should demonstrate strong revenue and an ability to control the acquisition of new customers.

Expert Team Including Tech Founders

The team includes award-winning tech start-up founders and technology specialists. The same team also manages the Blackfinch Ventures EIS Portfolios, for which they have already delivered a successful exit.

Value-Add Venture Partners

The team aims to appoint value-add non-executive directors named 'Ventures Partners' to investee firms' boards. With decades of experience in tech, they use their contacts and expertise, sharing knowledge and opening doors for firms.

Rigorous Due Diligence Processes

The team follows a standout process. It includes: generating UK-wide deal flow using a cutting-edge research platform; detailed technical evaluation by a sector expert; holding 3-4 hour initial pitch sessions with founders; and checks on the VCT tax status by leading tax specialists.

Potential for Special Dividends

The target is for 5% dividends in 2024. In the event of exits that are earlier or greater than expected, then as a relatively new VCT with a comparatively small number of shareholders, the VCT will have the potential to issue special dividends.

In-built Diversification

The VCT benefits from diversification at several levels. It's invested in a range of companies, at varying stages of growth, which operate in different tech-based sectors.

IMPORTANT INFORMATION

Capital at Risk. Blackfinch Spring VCT Plc, 1350-1360 Montpellier Court, Gloucester Business Park, Gloucester, GL3 4AH. Registered company in England and Wales Company no. 12166417.
